

12 May 2020

Dear Parents/ Carers

### **Year 8 Assessments**

I hope this message finds you and your family healthy and well.

In the best interests of students and staff well-being during these strange educational circumstances, the school has decided to cancel Year 8 assessments that were due to commence week beginning 1 June 2020.

We will, however, on our full return to school carry out baseline testing to identify potential learning gaps as a result of prolonged remote learning and implement appropriate measures to address the needs of the students where necessary.

I would like to take this opportunity to thank you for all the educational and emotional support you are providing your child during these challenging times.

I look forward to seeing all the Year 7 students once we return to school.

Kind regards

**Miss J Taylor**  
**Head of Learning - Year 8**
