

Friendship Bracelet

What you will need

- 7 pieces of thread.
- Circular piece of card with 8 slots.

Instructions:

1. Poke a hole through the centre of your circular piece of card.
2. Cut 8 evenly spaced slits around the circle.
3. Cut 7 pieces of thread about the length from your hand to your shoulder.
4. Line up the ends of the thread and tie a double knot.
5. Thread the strands through the back of the hole; make sure the knot stays on the back side.
6. Thread each of the strands through the slits on the front. One slit will be empty. Always keep the empty slit at the bottom of the circle while you work.
7. Count to the right (anti-clockwise) three strands, remove the strand from the slit.
8. Put the strand in the empty slit at the bottom. This creates a new empty slit. Turn the circle so that the empty slit is at the bottom. Continue with this action over and over.
9. The bracelet will start to form on the other side of the cardboard. Once it is long enough, remove the bracelet from the circle.
10. Tie a knot in the loose end, as close to the bracelet as possible. Trim the excess thread, leaving about two inches.
11. That's it!
