

# Grass Heads

## What you need

- Grass seeds
- Sawdust or sand
- Pop socks
- Elastic bands
- Googly eyes
- Strong glue

## How to make

1. Fill a cup to the top with sawdust.
2. Put the cup and sawdust in pop sock.
3. Turn cup over and lift out, all the sawdust goes into the pop sock.
4. Tie a knot in the pop sock, so that the sawdust can flop about.
5. Take three elastic bands and make three balls through the pop socks of the sawdust in a triangle pattern, this will be the ears and nose.
6. Undo your knot and put a small amount of grass seed in the back.
7. Retie the knot making sure that the sawdust is now tightly packed.
8. Glue on the face to your grass head.

## Instructions for after care

- Put in a shallow dish
- Water when needed
- Keep in the light (on a window sill)
- Cut the grass into your own style
