

October 2021

Dear Parents/Carers,

Year 8 Assessments 2021/22

The first assessment window for Year 8 will take place between 8 November and 19 November. Some practical and creative subjects such as P.E. and Technology will assess students through continued practical work.

Students will complete their summative assessments in class. A summative assessment is a test which focuses on the outcome, and students could be tested on all areas of the subject to date. Each assessment will build on the learning and knowledge from the previous assessment. Students will complete their own personal assessment timetable in tutor time. The timetable for all assessments will be available on SMHW and the school website.

Parent Consultation Evenings will follow immediately after the first summative assessments being completed and marked.

The date for the Year 8 Consultation Evening is 9 December 2021. The online booking system for Year 8 opens on 22 November.

In the week leading up to the Consultation Evening, academic reports for each student will be generated and loaded to INSIGHT.

For more information about Assessment and Reporting, please visit the school website, and click on Our School → Teaching and Learning → Progress and Reports. The link to book your appointments for the consultation evening can be accessed at the bottom of the school website homepage.

Yours sincerely

Miss M Scott
Head of Learning Year 8
